Pringhar Bell: We enjoyed a pleasant call last Friday afternoon from Atty. Hoppers of Orange City, county attorney for Sioux county, and one of the rising young men of that section. Mr. Hoppers was one of the progressive leaders in that county last year and he and the writer often came in contact, hence our visit was most enjoyable, as the time was spent in reviewing past events of mutual interest. Mr. Hoppers was here on matters in court before Judge Hutchinson.

The funeral of Mrs. Henry Hoppers at the first Reformed church last Friday was a striking testimonial to the esteem in which she was held by a large circle of friends in the community in which she had lived for so many years. The big church was crowded with mourning friends in spite of the inclemency of the weather and the services were very impressive.

Certainly, June will be a warm month and corn will grow and the small grain will shoot up, mindful of the big prices which now prevail. April was not so bad a month after all, in the light of what May brought us. Just as hope springs eternal in the human breast, so it may be fondly thought that June will be just exactly such a month as brides have been led to think is coming to them.

The piano fund of the public schools is nearly \$100 better off because of the two entertainments of last Friday night and the repeated performance of last evening. He was 20 years old and a fine young man. Interment will be at Litchville, the family returning there Saturday.

Yes, there is likely to be frost every month in the year. Sunday night, just when the apple orchards were in full bloom, along came a chilling blast from Boreas and gave a heavy frost. Possibly the damage was not great, for May frosts, according to directors Sage and Aue, skip around just as they please, hitting a spot here and one there. There was also a shower or two last week, the rainfall being five and one-half inches. The ordinary fall for May is six inches and we have had that already.

A Farewell Testimonial. The Ladies Aid of the First Reformed church, with which Mrs. A. J. Kuyper has been officially connected for many years, marched over to the Kuyper home Monday evening some fifty strong with intention to demonstrate to that family that they were not to be permitted to leave without taking notice of the many friends they were leaving behind in Orange City. Pella Happenings. From The Chronicle. The frost Monday morning was pretty hard on early gardens. Potatoes that were up out of the ground were injured. It did no damage to oats and barley.

Miss Nellie Dingeman, daughter of Daniel Dingeman, was taken seriously ill last Saturday with appendicitis. She has been constantly under the doctor's care since and at this writing her condition seems to be somewhat improved.

Dr. H. S. Baron left Monday for Dallas, Texas, to attend a convention of the National Medical Society, and will spend a couple of weeks traveling in the southwest before returning home.

Card of Thanks. We all of us desire to express our heartfelt thanks to the neighbors and friends who have been of so much help to us during the last week of affliction. HENRY VAN PELT. For the children of A. Van Pelt.

A Pioneer Gene. Leendert Van Pelt was born at Charlois, South Holland, April 6, 1822 and died in Orange City Sunday night. Mr. Van Pelt was one of the early pioneers of the county, coming here from Pella with his family in 1870 which then consisted of his wife and four children, Dirk, Bert, Andrew and Mary. He took up his homestead near town and made a fine farm of it. During the last year or two he had lived with Mr. and Mrs. Ike Vos and had kept around in tolerable health. Sunday morning he was up as usual, smoked his pipe and sat out on the porch for a time. But the machinery was worn out and he passed away peacefully and without pain. Mrs. Van Pelt died five years ago and a daughter Mrs. Van De Steeg in March. Seven children survive, Dirk, Albert, Mrs. Frank Van de Steeg, Leendert, Henry, Mrs. J. R. Brink, Mrs. J. G. Van den Berg. There are forty one grandchildren living and eighteen great grandchildren. The funeral took place yesterday at two o'clock from the First Reformed church and was attended by a great number. Mr. Van Pelt passed away surrounded by the evidences on all sides of the remarkable progress in which he and his family had been so large a factor and after an experience to which it is given few men to pass through.

Card of Thanks. Hereby we wish to express our thanks for all acts of kindness shown our beloved mother, during her sickness (and appreciated so much by her) and for the sympathy shown in the days of our bereavement. In name of the children, G. H. HOPPERS.

SHORT TALKS BY L. T. COOPER.

NERVOUSNESS.

Nervousness makes people miserable, blue, and unhappy. They think something terrible is going to happen. At night they toss and worry and are not rested. They tire easily and haven't much energy. They think many things are the matter with them—Consumption, Kidney trouble, or twenty other diseases. It's just stomach trouble, nothing else in the world. Two bottles of Cooper's New Discovery will put the stomach in shape in three weeks. I know this because I've seen it tried a thousand times. Then all nervousness will disappear. I know this too, because I've seen it happen a thousand times. Here's a letter I got the other day:

"My system was badly run down and my stomach and nerves in an awful shape. I could not digest my food, was always tired and would often feel faint and dizzy."

"I had heard so much of your New Discovery medicine that I began taking it. Relief and strength and happiness were found in the very first bottle and the benefit I have received from it has been truly wonderful. I am no longer nervous, my appetite and digestion are good and I eat everything and sleep well." Mrs. W. J. Schauer, 220 Guthrie St., Louisville, Ky.

We sell Cooper's New Discovery. It makes tired, worn out, nervous people happy.

CONUNDRUM! The very general inquiry as to what becomes of all the Durum or Macaroni wheat raised in the northwest is partially answered in the following quotation from a Chicago trade paper: "Extensive advertising methods on the part of certain large milling interests in the Northwest do not appear to have resulted in any material increase in the volume of business. "The city trade is still in a very unsettled and unsatisfactory condition, owing to recent cutting and slashing of prices by several of the larger milling interests of the Northwest. It is intimated that certain regular brands are not giving entire satisfaction, showing the result of mixing operations. The article makes a loaf of good color, but is deficient in size, which is evidently due to the use of durum wheat." The "large milling interests in the Northwest," whose "extensive advertising methods" we have before referred to in this space, can buy the Macaroni wheat at 14 to 18 cents per bushel less than good hard wheat—equal to a difference of 75 to 80 cents per barrel in flour. If the public buys the product as hard wheat flour, who pays the cost of the beautiful advertisements? MORAL:—Buy Alton flour and get what you buy. We have never ground a bushel of Macaroni wheat.
